## CSAM UNVEILS PLANS FOR CSAM – THE SAFETY CONFERENCE

WINNIPEG, June 27, 2011 – After 22 years of co-hosting the Manitoba Construction Conference, the Construction Safety Association of Manitoba (CSAM) and the Manitoba Heavy Construction Association (MHCA) have amicably dissolved their partnership, officially signalling the end of the Manitoba Construction Conference.

Going forward, CSAM is pleased to launch **CSAM – THE Safety Conference** for 2012 and beyond.

### **New name, same format, same dates, same venue, SAME GREAT CONFERENCE.**

Building on the success of the popular Manitoba Construction Conference, **CSAM – THE Safety Conference** will provide everything Manitoba's construction industry has come to expect from the MCC – top notch speakers, quality training at an affordable price, a superb exhibitor tradeshow, and of course, plenty of networking.

"**CSAM – THE Safety Conference** will pick up where the Manitoba Construction Conference left off – providing industry delegates with exceptional education and training that aids in the prevention of incidents, injuries and loss," says Sean Scott, Executive Director, Construction Safety Association of Manitoba and MCC Co-chair for the last 10 years. "We take extreme care in ensuring that every person who attends – whether a registrant, exhibitor, instructor or guest – has a memorable and rewarding experience, and I promise that commitment to excellence will continue."

**CSAM – THE Safety Conference** is scheduled for **February 7 & 8, 2012** at the **Winnipeg Convention Centre**. Visit our website at [www.constructionsafety.ca](http://www.constructionsafety.ca) or [www.constructionconference.ca](http://www.constructionconference.ca) for information on courses, sponsorship and exhibitor opportunities.

Thank you for supporting the Manitoba Construction Conference over the last 22 years! We look forward to your continued support of **CSAM – THE Safety Conference**.
